Projects and Certifications

Projects:

- **Sales Dashboard & Report**

Tech Stack: Power BI, DAX, Power Query, Excel/CSV

Built an interactive Power BI dashboard analysing 400K+ sales records across categories, quarters, and states. Applied Power Query and DAX to clean and transform raw data, visualize key metrics, and deliver actionable insights for business decision-making. [[GitHub Link](#)]

- **NGO-Volunteer Connection**

Tech Stack: React, Node.js, Express, MongoDB, Tailwind CSS, JWT, GitHub.

Developed a MERN stack platform that matched over 100+ volunteers with NGOs for various social events.

I led the development using React for the front end and Node.js for the back end, integrating user authentication and a notification system for event updates. [[GitHub Link](#)]
